

VMware® vCenter™ Heartbeat

Recovers from failure

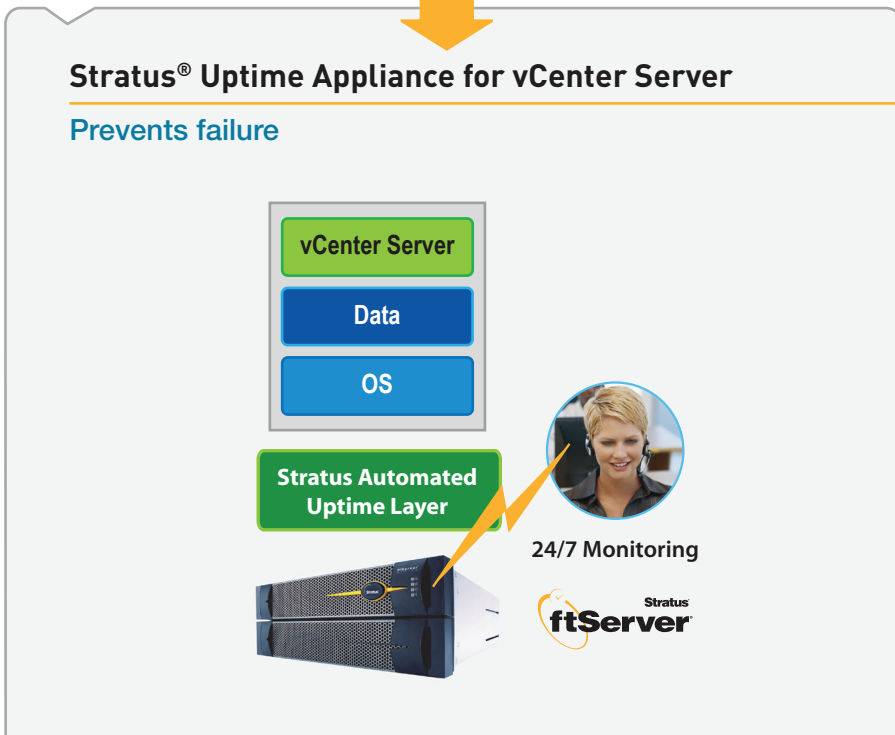

Complex and costly

- Introduces additional points of failure and complexity
- Incurs performance overhead associated with replication
- Hidden network channel to manage and troubleshoot
- Additional web management interface
- Must initiate or script failover processes
- Multiple servers and software licenses

Stratus® Uptime Appliance for vCenter Server

Prevents failure

Zero downtime, lower costs, simple to deploy and manage

- Engineered for immediate deployment
- Automatic “out-of-the-box” 99.999+% uptime* for vCenter Server
- Runs off-the-shelf Microsoft Windows® OS and vCenter Server
- Significantly lower costs
- Resilient hardware withstands faults that cause other servers to crash
- Stratus Automated Uptime™ Layer detects, isolates, and resolves faults before they cause downtime
- 24/7 monitoring: people and practices
